^{*} The Dean is chairman.

FACULTY

PROFESSORS EMERITUS

SARAH W. RUPP, D.O., Professor Emeritus of Neuro-Anatomy, 8 Shirley Road, Narberth, Pa.

WILLIAM S. NICHOLL, D.O., D.Sc., Professor Emeritus of Art of Practice, 4909 Frankford Avenue, Philadelphia 24, Pa.

EUGENE M. COFFEE, D.O., Professor Emeritus of Jurisprudence, 618 Park Avenue, 465 Haddon Avenue, Collingswood, N. J.

EDWARD G. DREW, D.O., D.Sc., F.A.C.O.S., Professor Emeritus of Gynecology, 10 West Street, Waterville, Me.

RUTH E. TINLEY, A.B., D.O., M.Sc., Professor Emeritus of Pediatrics, 1318 Wakeling Avenue, Philadelphia 24, Pa.

C. HADDON SODEN, D.O., M.Sc., Professor Emeritus of Osteopathic Therapeutics, 12 S. 12th Street, Philadelphia 7, Pa.

D. S. B. PENNOCK, D.O., M.D., D.Sc., Professor Emeritus of Surgery, 1813 Pine Street, Philadelphia 3, Pa. 2005

HERBERT V. DURKEE, D.O., M.Sc., Professor Emeritus of Histology, 236 E. Commerce Street, Bridgeton, New Jersey

PROFESSORS

- H. WALTER EVANS, D.O., M.Sc., Professor of Obstetrics & Gynecology, 1526 N. 16th Street
- FRANCIS J. SMITH, D.O., M.Sc., Professor of Anesthesia, 6809 Emlen Street
- FREDERICK A. LONG, D.O., M.Sc., Professor of Neurology & Psychiatry, Central Medical Building
- PAUL T. LLOYD, D.O., D.Sc., F.A.C.O.S., Professor of Radiology, 48th and Spruce Streets
- J. ERNEST LEUZINGER, D.O., M.Sc., F.I.S.O., F.A.C.O.S., Professor of Otorhinolaryngology and Bronchoesophagology, 1813 Pine Street
- JOSEPH F. PY, D.O., M.Sc., Professor of Bacteriology & Hygiene, 460 Lyceum Avenue
- EDWIN H. CRESSMAN, D.O., Professor of Dermatology & Syphilology, 315 S. 22nd Street
- WILLIAM BALDWIN, JR., M.A., D.O., Professor of Physiology & Pharmacology, 6856 N. 19th Street
- ANGUS GORDON CATHIE, D.O., Professor of Anatomy, 48th and Spruce Streets
- WILLIAM S. SPAETH, D.O., Professor of Pediatrics, 2804 Hillcrest Road, Drexel Hill, Pa.
- WILBUR P. LUTZ, D.O., Professor of Osteopathic Medicine, 1906 W. 73rd Avenue
- KENNETH L. SENIOR, B.S., M.S., Professor of Chemistry, 48th and Spruce Streets
- JAMES M. EATON, D.O., F.A.C.O.S. Professor of Surgery, 12 S. Twelfth Street
- O. EDWIN OWEN, B.S., M.A., D.O., Professor of Pathology, Engle and Rose Valley Road, R.D. 20, Media, Pa.

orthopsari

CLINICAL PROFESSORS

- THEODORE W. STIEGLER, D.O., Clinical Professor of Osteopathic Medicine, 923 Jefferson Street, Wilmington, Del.
- ANTONIA ABEYTA, B.S., D.O., F.O.C.O., Clinical Professor of Ophthalmology, 4615 Locust Street
- CARLTON STREET, D.O., M.Sc., F.A.C.O.S., Clinical Professor of Surgery, 1228 Lehigh Avenue
- LEO C. WAGNER, D.O., M.Sc., F.A.C.O.S. Clinical Professor of Pediatrics, 23 E. Lacrosse Avenue, Lansdowne, Pa.
- EARL F. RICEMAN, D.O., Clinical Professor of Osteopathic Medicine, 5328 Greene Street
- WILLIAM F. DAIBER, D.O., Clinical Professor of Osteopathic Medicine, 5000 Penn Street
- FRANCIS E. GRUBER, D.O., Clinical Professor of Obstetrics, 1414 Spruce
- MAHLON H. GEHMAN, D.O., Clinical Professor of Ophthalmology, 1818 Pine Street
- ARTHUR M. FLACK, JR., A.B., D.O., F.A.C.O.S., Clinical Professor of Surgery, 135 S. 17th Street
- GALEN YOUNG, D.O., Clinical Professor of Surgery, 2300 Providence Avenue, Chester, Pa.
- JOSEPH L. HAYES, D.O., Clinical Professor of Physical Therapy, 4916 Larchwood Avenue

ASSOCIATE PROFESSORS

- J. CRAIG WALSH, D.O., Associate Professor of Surgery (Anesthesiology), 4173 Ridge Avenue
- DEWAINE GEDNEY, D.O., Associate Professor of Surgery, 135 S. 17th Street
- F. MUNRO PURSE, D.O., Associate Professor of Pediatrics, 127 Elmwood Avenue, Narberth, Pa.

ASSISTANT PROFESSORS

- HARRY HESSDORFER, D.O., Assistant Professor of Osteopathic Medicine, 7032 Ogontz Avenue KENNETH L. WHEELER, D.O., Assistant Professor of Radiology, 1700
- Walnut Street
- HERMAN KOHN, D.O., Assistant Professor of Obstetrics & Gynecology, 5331 Baltimore Avenue
- BERNARD WITLIN, D.Sc., Assistant Professor of Bacteriology & Hygiene, 6203 N. 11th Street
- WILLIAM BARNHURST, D.O., Assistant Professor of Obstetrics & Gynecology, 3475 Midvale Avenue
- BARBARA REDDING, D.O., Assistant Professor of Osteopathic Principles & Technique
- PHILIP M. LESSIG, M.A., D.O., Assistant Professor of Bacteriology & Hygiene, 179 E. Roosevelt Boulevard
- JOHN J. McHENRY, D.O., Assistant Professor of Osteopathic Medicine, 5201 Pine Street

- JOHN W. SHEETZ, D.O., Assistant Professor of Otorhinolaryngology, 2065 N. 63rd Street
- DAVID HEILIG, A.B., D.O., Assistant Professor of Osteopathic Principles & Technique, Commercial Trust Building, 21 S. 15th Street
- SPENCER G. BRADFORD, D.O., Assistant Professor of Physiology & Pharmacology, 1245 W. Allegheny Avenue
- MICHAEL COLEMAN, D.O., Assistant Professor of Proctology (Surgery), 1616 W. Erie Avenue
- ENRIQUE VERGARA, A.B., D.O., Assistant Professor of Proctology, 1616 N. Broad Street

ASSOCIATES

- CLARENCE BALDWIN, D.O., Associate in Osteopathic Medicine, 2936 W. Lehigh Avenue
- VICTOR R. FISHER, D.O., Associate in Osteopathic Medicine, 18th and Chestnut Streets
- BLANCHE C. ALLEN, A.B., B.A., D.O., Associate in Anatomy, Bryn Mawr, Pa.
- HARRY I. STEIN, A.B., D.O., Associate in Otorhinolaryngology, 3027 W. Diamond Street
- BERYL E. ARBUCKLE, Associate in Osteopathic Principles & Technique, 920 N. 63rd Street
- GEORGE GUEST, D.O., Associate in Neuro-psychiatry, 1226 W. Lehigh Avenue
- CECIL HARRIS, D.O., Associate in Neurology & Psychiatry, 2904 W. Girard Avenue
- JACOB B. RAPP, D.O., Associate in Osteopathic Medicine, 5614 Spruce Street
- LESTER EISENBERG, D.O., Associate in Obstetrics & Gynecology, 36 Copley Road, Upper Darby, Pa.
- GEORGE W. TAPPER, D.O., Associate in Osteopathic Medicine, 425 Cooper Street, Camden 2, N. J.

LECTURERS

- JONATHAN K. MILLER, D.D.S., Lecturer in Bacteriology & Hygiene, 39th and Chestnut Streets
- EDWARD R. THIELER, D.O., Lecturer in Bacteriology & Hygiene, 7804 Bayard Street
- HENRY B. HERBST, D.O., Lecturer in Osteopathic Medicine, 41 E. Walnut Lane
- DAMASCO DERIVAS, M.D., M.Sc., Ph.D., Lecturer in Bacteriology & Hygiene (Tropical Medicine), Lansdowne, Pa.
- GLEN W. COLE, D.O., Lecturer in Orthopedic Surgery, Norristown, Pa.
- ARNOLD GERBER, D.O., Lecturer in Surgery, 5040 Chestnut Street
- HARRY F. MINTZER, D.O., Lecturer in Osteopathic Medicine, Woodlynne, N. J.

DEMONSTRATORS

DAVID W. CRAGG, D.O., Demonstrator in Anatomy, 4515 Paul Street LEMAR EISENHUT, JR., D.O., Demonstrator in Anatomy, New Hope, Pa. RICHARD LEEDY, D.O., Demonstrator in Osteopathic Principles & Technique, Woodbury, N. J.

ARNOLD MELNICK, A.B., M.A., D.O., Demonstrator in Pediatrics, 3226 Tyson Avenue

WILLIAM MORRIS, JR., B.S., D.O., Demonstrator in Obstetrics & Gynecology, 536 S. 57th Street

INSTRUCTORS

- ROBERT E. BACHMAN, D.O., Instructor in Osteopathic Medicine, 5723 Torresdale Avenue
- FRED E. MOWRY, D.O., Instructor in Radiology, 2014 W. Tioga Street LEWIS G. TORRIERI, B.S., M.D., D.O., Instructor in Anatomy, Upper Darby, Pa.
- THOMAS K. STANDRING, D.O., Instructor in Ophthalmology & Otolaryngology, Oaklyn, N. J.
- WARREN PRATT, D.O., Instructor in Anatomy, 6816 Market Street
- JOHN H. SCHALL, A.B., D.O., Instructor in Chemistry, 4727 Hazel Avenue
- EDGEL WILEY, D.O., Instructor in Osteopathic Principles & Technique, Lancaster, Pa.
- GEORGE H. COURT, D.O., Instructor in Surgery, Upper Darby, Pa.
- MORTON HERSKOWITZ, B.S., D.O., Instructor in Neurology & Psychiatry, 2637 W. Columbia Avenue
- OTTO M. KURSCHNER, A.B., D.O., Instructor in Pediatrics, 1319 N. 52nd Street
- THOMAS F. SANTUCCI, D.O., Instructor in Pediatrics, 1523 S. Broad Street
- ERNEST T. TALONE, D.O., Instructor in Pediatrics, Norristown, Pa. SAMUEL BRINT, D.O., Instructor in Obstetrics & Gynecology, 409 S. 46th Street

ASSISTANTS

- NATHANIEL, N. BERMAN, D.O., Assistant in Osteopathic Medicine, Yeadon, Pa.
- FRANCIS R. O'BRIEN, D.O., Assistant in Surgery (Proctology), 69th and Market Streets
- ROBERT WHINNEY, D.O., Assistant in Urology, 4915 Oxford Avenue WILLIAM L. TANNENBAUM, D.O., Assistant in Radiology, 111 S. Broad Street
- HAROLD L. BRUNER, D.O., Assistant in Osteopathic Medicine, 5051 Oxford Avenue
- SHERWOOD BERMAN, D.O., Assistant in Pediatrics, 6127 Caster Avenue JOHN ANTHONY TORELLO, D.O., Assistant in Anatomy, Avondale, Pa.
- HARRY E. BINDER, D.O., Assistant in Surgery, 7247 Charles Street, Mayfair

HARRY H. KOLANDER, D.O., Assistant in Osteopathic Principles & Technique, 405 Ritner Street

KERMIT LYMAN, D.O., Assistant in Osteopathic Principles & Technique, Brookline, Upper Darby, Pa.

NICHOLAS S. NICHOLAS, D.O., Assistant in Osteopathic Principles & Technique, 6794 Market Street

RAYMOND RUBERG, D.O., Assistant in Surgery, 4614 Wayne Avenue WILLIAM C. SODEN, D.O., Assistant in Osteopathic Principles & Technique, Elkins Park, Pa.

LEOPOLD SALKIND, D.O., Assistant in Pediatrics, 1630 S. 6th Street WARREN SWENSON, D.O., Assistant in Surgery, 6654 Frankford Avenue RALPH TOMEI, D.O., Assistant in Osteopathic Medicine, 3533 Ryan Avenue

NICHOLAS TRETTA, B.S., D.O., Assistant in Osteopathic Medicine, 7418 Buist Avenue

HUBERT WAGNER, A.B., D.O., Assistant in Surgery, 6608 N. Sixth Street

CLYDE SAYLOR, B.S., D.O., Assistant in Osteopathic Principles & Technique, 112 S. 16th Street

GEORGE BORGMAN, D.O., Assistant in Physiology & Pharmacology, Allentown, Pa.

CLINICAL ASSISTANTS

THEODORE C. LOUX, D.O., Clinical Assistant in Osteopathic Principles & Technique, Manoa, Pa.

MICHAEL BLACKSTONE, D.O., Clinical Assistant in Urology, Allentown, Pa.

MARTIN FARBER, D.O., Clinical Assistant in Surgery (Proctology), 5200 Frankford Avenue

WALTER WILLIS, D.O., Clinical Assistant in Dermatology & Syphilology, Conshohocken, Pa.

ALBERT J. FORNACE, D.O., Clinical Assistant in Osteopathic Medicine, 5607 N. 5th Street

SIDNEY KOCHMAN, D.O., Clinical Assistant in Osteopathic Medicine, 204 E. Allegheny Avenue

ALBERT C. KETTE, JR., D.O., Clinical Assistant in Osteopathic Medicine, Hatfield, Pa.

ANTON CLAUS, D.O., Clinical Assistant in Osteopathic Medicine (Tropical), 731 Vernon Road

HERBERT LIPKIN, D.O., Clinical Assistant in Obstetrics & Gynecology, 1824 W. Montgomery Avenue

DANIEL FORD, D.O., Clinical Assistant in Osteopathic Principles & Technique, Drexel Hill, Pa.

EDWARD FREEDMAN, A.B., D.O., Clinical Assistant in Pediatrics, Upper Darby, Pa.

CHARLES HEMMER, A.B., D.O., Clinical Assistant in Surgery (Anesthesiology), 5001 Pine Street

WILLARD H. STERRETT, JR., D.O., Clinical Assistant in Urology, 112 W. Walnut Lane

ISRAEL FELDMAN, Ph.D., D.O., Clinical Assistant in Dermatology & Syphilology, 901 S. 22nd Street

- FREDERICK ANNE, D.O., Clinical Assistant in Surgery, 5035 Schuyler Avenue
- ALBERT BONIER, D.O., Clinical Assistant in Surgery, 724 N. 7th Street ALBERT REIBSTEIN, D.O., Clinical Assistant in Surgery, 2114 Chelten Avenue
- MILFORD ALPER, BERNARD, A.B., D.O., Clinical Assistant in Ophthalmology, 2438 S. Orkney Street
- H. J. VANDER MARK, D.O., Clinical Assistant in Ophthalmology, Woodbury, N. J.
- THEODORE KURZ, B.S., D.O., Clinical Assistant in Physical Therapy, 4011 Baltimore Avenue

Historical Statement

THE Philadelphia College of Osteopathy was established in 1898 by Dr. O. J. Snyder and Dr. Mason Pressley, chartered as a professional school dedicated to "improved methods of the healing art in accordance with Osteopathic theories of etiology, diagnosis, the prevention and treatment of diseases in general, and the practice of surgery, obstetrics and the specialties" and to "Osteopathic research and the dissemination of scientific knowledge."

It was incorporated as "The Philadelphia College and Infirmary of Osteopathy," January 24, 1899, under the laws of the State of New Jersey. The first class was graduated in 1900. In 1921 the corporate name of "Philadelphia College of Osteopathy" was authorized.

The first college was opened in the Stephen Girard Building and shortly afterward was transferred to larger quarters in the Witherspoon Building. In 1903 it was moved to the northeast corner of Thirty-third and Arch Streets. From 1908 to 1911 it was situated at 715 North Broad Street, and from 1912 to 1916 at 832 Pine Street. In 1916 the Reyburn Mansion at the southeast corner of Nineteenth and Spring Garden Streets was purchased for the College. A fifty-bed hospital building was erected adjoining the College on Nineteenth Street. Subsequently two properties adjacent to the College on Spring Garden Street were purchased to serve as annexes to the College and Hospital. The Board of Directors of the Osteopathic Hospital secured the present site at Forty-eighth and Spruce Streets in 1928, where space in a completely new building was opened for classes on November 16, 1929.

The Osteopathic Hospital of Philadelphia was chartered under the laws of Pennsylvania, May 10, 1911, "to establish support and conduct a General Hospital for the treatment of sick and injured persons." The hospital was the outgrowth of a Dispensary located at 1617 Fairmount Avenue. In 1911 the Osteopathic Hospital of Philadelphia was established at 410 South Ninth Street. When the college moved to Nineteenth and Spring Garden Streets, the hospital was temporarily quartered at 1725 Spring Garden Street, where it remained until completion of the hospital building on the Nineteenth Street site in 1918.

In January, 1929, the Board of Directors sponsored a public campaign for funds, setting the goal at \$1,030,000, to meet the needs for new college and hospital buildings. The success of this great drive, in which \$1,044,000 was subscribed, is without parallel in Osteopathic achievement involving a building program.

The site at the northeast corner of 48th and Spruce Streets was purchased in 1928 at a cost of \$165,000. Upon this tract, with a frontage of 281 feet on Spruce Street and 250 feet on 48th Street, units for College, Hospital and administration were erected in 1929 at a cost of a million dollars.

In 1951 the Hospital purchased the buildings and grounds of the long-established Women's Homeopathic Hospital of Philadelphia, occupying a complete city block in North Philadelphia, bounded by Dauphin Street, Uber Street, Susquehanna Avenue and 20th Street. There are five buildings on a shaded lawn, bounded by a stone fence. The acquisition of this plant increased the total hospital bed capacity above the four-hundred level, making the Philadelphia Hospital the largest single teaching hospital in the Osteopathic profession. The setting up of this newly-acquired property as part of the College-Hospital operation involved the organizing of a fund supplied by the Hospital Staff members. Within a short period in the month of August the Staff marshalled a cash sum of more than \$300,000 for this purpose.

Our Hospital Staff began using its new North Philadelphia Center on May 16, 1951. Final settlement was made August 16. On September 29, 1951 was held the formal dedication at which time the gateway plaque, "Philadelphia College of Osteopathy, North Center Hospital," was unveiled by Dr. Frederic H. Barth, President of the Board of Trustees, and Dr. David Sands Brown Pennock, for more than a quarter of a century Chief of Staff on our hospital, and the man who obtained the first charter for an Osteopathic hospital ever issued by the State of Pennsylvania.

With the opening of classes in the fall of 1951, the clinical teaching was extended to cover North Center Hospital as well as all the other functions of the West Philadelphia parent unit. Both hospitals operate as one organization, and the teaching and service functions of the two hospitals are coordinated by the Faculty and Staff.

The Philadelphia College of Osteopathy and the Osteopathic Hospital of Philadelphia are so organized that each department extends throughout College, Hospital and Clinic as one team under the direction of the department head. The School of Nursing trains Registered Nurses in the special skills required for Osteopathic care of patients.

ORGANIZATION

The general governing body of the Philadelphia College of Osteopathy is the Board of Trustees. The Board consists of fifteen members. The educational and financial interests of the College are administered by the Board. The Faculty members are appointed to office by the Board of Trustees.

THE COLLEGE PHYSICAL STRUCTURE

The parent College-Hospital building at Forty-eighth and Spruce Streets is designed in collegiate gothic. The structure, comprising four floors and a basement, is built of colonial red brick with limestone trim and variegated slate roof. The main entrance on Spruce Street, flanked by towers, opens into a large lobby connecting the College and Hospital units. Immediately off the lobby are waiting rooms and general administrative offices. In the

basement of the College is found the Out-Patient Clinic Department. There are completely equipped departments for clinical instruction in neurology, obstetrics and gynecology, pediatrics, proctology, ophthalmology and oto-laryngology, urology, dermatology, diseases of the chest, physical therapy, etc. On the first floor is the auditorium, the College Administration offices and the College Library. On the second floor are located laboratories—physiology and pharmacology, embryology and histology—and classrooms. On the third floor is found the Department of Chemistry. In addition, this floor contains the pathology and bacteriology laboratories, research laboratories, and classrooms. The fourth floor houses the Anatomy Laboratory. This consists of working facilities for students with ample demonstration material on display, adjoined by the cadaver room, mortuary and autopsy room.

THE HOSPITAL

In the building jointly utilized by the College and Hospital, the Hospital units offer accommodations for 168 patients, comprising private rooms, semi-private rooms, wards, nurseries, delivery unit, operating units, workrooms, X-ray quarters, kitchens, dining rooms, etc. The basement comprises kitchen, dining rooms and serving rooms. In the central section of this floor is found the X-ray Department containing complete diagnostic and therapeutic units. The first floor is planned as a general floor. Here are found receiving and emergency wards, three adult wards and a children's ward, private and semi-private rooms. The Maternity Department occupies the second floor. Here are located a complete operating and delivery unit, two wards, private and semi-private rooms, general and isolation nurseries; in addition, the typical work rooms. Surgery occupies the third floor; an operating amphitheater with seating capacity of approximately 200, a private operating room, anaesthetizing room, and the orthopedic department. Work rooms and a sterilizing room occupy the central section. Wards, semi-private rooms, and private rooms make up the remainder. The amphitheater of the third floor operating room occupies the central section of the fourth floor. Adjoining are laboratories of Pathology and Bacteriology, the mortuary and autopsy room, and classrooms of the School of Nursing.

The combination of the osteopathic college with its two hospital units is organized to give the student the optimum clinical training. All departments of college teaching are correlated, with each clinical department extending throughout College, Hospital and Dispensary as one unit under the direction of a single head.

CLINICAL FACILITIES AND OPPORTUNITIES

The clinics of the Philadelphia College of Osteopathy and the Osteopathic Hospital of Philadelphia have been distinctive in their extensive scope, stable organization and abundant patronage. Situated in a great medical metropolis, the osteopathic dispensary has of necessity competed

with similar units of other institutions and has flourished under constantly increasing demands.

A large number of demonstrators on daily service at both hospitals make possible intimate and personal contact with the individual students. In the out-patient dispensaries the vast amount of clinical material further insures contact with a wide range of varying grades of diseases. The clinical department prescribes systematic and coordinated instruction in all phases of osteopathic medicine.

The schedules for third and fourth year classes are so arranged that the students are daily occupied in the practical work in the College clinics and in the wards and laboratories of the Hospitals. For a period of twelve weeks senior students serve as clinical clerks in the Hospital. Additional hospital teaching facilities are afforded by attendance of third and fourth year students in small groups at the Municipal Hospital of Philadelphia for bedside instruction in contagious diseases. An out-patient Maternity Clinic furnishes an abundance of subjects for prenatal and general obstetrical care in homes throughout that section of the city.

HARVEY SCHOOL OF ANATOMY

The Harvey School of Anatomy is a regularly chartered institution for the study of practical Anatomy, and is housed in the College building. A collection of special dissections, specimens and models is on display and arranged for study. The facilities afford excellent opportunities for detailed investigation of normal and abnormal structures. The dissecting room is equipped with tables and cabinets of special demonstration material.

THE MUSEUM

The Museum of the College contains specimens and models placed in mahogany, plate-glass, well-lighted cases occupying the entire north wing of the main auditorium. The collection includes both normal and pathological specimens, serial sections, dissections and mounted preparations illustrating the major diseases. Among the most notable are the collection of bone specimens, human embryos, Spalthoholtz preparations, development of the cardio-vascular system in plaster, etc.

The Anatomy Laboratory houses a museum of international repute, declared by visiting State Board inspectors one of the best in the world maintained by any school of the healing arts.

O. J. SNYDER MEMORIAL LIBRARY

The general Library of the College is quartered in the college building, adjacent to the auditorium. It contains several thousand volumes recommended by the various departments for collateral reading, including all the standard osteopathic textbooks and periodicals, current journals as they are circulated and bound volumes of the more important publications covering

past years. Students have free access to the Library. Most of the books may be borrowed for a period of one week upon presentation of the library card issued to individuals by the Librarian. Working libraries are provided in laboratory, and in research and clinical departments.

COURSE OF STUDY

It is the aim of the college to prepare the student for the general practice of Osteopathy. The first two years of the four-year instruction program are concerned principally with the fundamentals: anatomy, histology, embryology, chemistry, pathology, physiology, and bacteriology. During the second year, work is begun in physical diagnosis, osteopathic medicine, and radiology, as a basis for the more advanced subjects of surgery, obstetrics, and the various divisions of general osteopathic practice which occupy most of the final term of the second year and all of the third year. The fourth year is essentially clinical with assignments in the general and special outpatient clinics, in the wards of the hospitals, and to special assignments involving "field trips" to other hospitals.

Throughout the course the principles and practice of osteopathic manipulative technique are directed to their specific applications in each field. This teaching departmental work is coordinated with the basic sciences during the first year and progressively leads into the clinical phases of practical application as the training program progresses through the upper years.

HOSPITAL INTERNSHIPS

Each year selected members of the graduating class are recommended to the Board of Directors of the Osteopathic Hospital of Philadelphia for appointment as interns to serve for one year from the following first of July. This selection is made primarily on the basis of scholarship and personality, as well as intellectual fitness. The Faculty of the Philadelphia College of Osteopathy also assists in securing positions as resident interns in other hospitals throughout the country. The demand for interns from the Philadelphia College far exceeds the supply.

Isotope Laboratory

Located in the College and nearing completion is a laboratory designed and equipped for the use of artificial radioactive materials in the diagnosis and treatment of disease and also in the fields of research.

The laboratory has been equipped through generous gifts from The Central Lions Club of Philadelphia and The North Philadelphia Lions Club, and Stephen Girard Lions Club.

Modern work tables, a stainless steel sink and a stainless steel hood have been installed, while the survey meters, scalers and Geiger tubes available are designed to meet the needs of those engaged in using radio-isotopes.

Additional equipment includes standardized radium and neutron sources and other items essential to the operation of such a laboratory.

A specially constructed safe has been obtained for the purpose of storing radioactive materials and generally the laboratory has been so constructed as to provide safety for the workers and convenient service to physician and patient.

Requirements for Admission

Applicants for admission to the Philadelphia College of Osteopathy for the regular osteopathic course candidates for the degree of Doctor of Osteopathy, must present satisfactory evidence of having successfully completed a course of preliminary study equivalent to the following:

- (A) FOUR YEARS ACCREDITED HIGH SCHOOL COURSE OR ITS EQUIVALENT, AND IN ADDITION,
- (B) A MINIMUM OF TWO YEARS OF COLLEGIATE WORK IN AN APPROVED COLLEGE OF ARTS AND SCIENCES, OR ITS EQUIVALENT, WITH SPECIFIED COURSES IN CHEMISTRY, PHYSICS, BIOLOGY AND ENGLISH.

The details of requirement (B) are as follows:

- 1.50% of the total number of credits required for the baccalaureate degree in Arts or Science at an approved college of liberal Arts and Sciences.
- 2. Chemistry: Inorganic—Full college course of at least 8 hours.

 Organic—Minimum of 4 hours of which at least 2 should be laboratory work.
- 3. Physics: Minimum of 8 hours of which at least 2 should be laboratory work.
- 4. Biology: Minimum of 8 hours of which at least 4 should be laboratory work. (This requirement may be satisfied by a course of 8 semester hours in either General Biology or Zoology, or by courses of 4 semester hours each in Zoology and Botany, but not by Botany alone.)
- 5. English: Minimum of 6 hours in composition and literature.

Students will not be admitted to the college with any deficiencies in these requirements.

Prospective applicants continuing in pre-professional study for three or four years are advised not to take excessive work in the physical and biological sciences except that the work in Chemistry should include some instruction in qualitative and quantitative analysis and physical chemistry, if possible, and studies in organic chemistry may be extended. However, if you receive a "D" in a science course (such grade noticeably reflecting upon your general science average), it would be advisable to take additional work in that subject.

The pre-osteopathic student is urged to take additional work in subjects of cultural rather than vocational emphasis, such as literature, philosophy, history, fine arts, modern languages, psychology, social sciences, written and spoken English.

The various states have different standards of preliminary education.

FOR PURPOSES OF LICENSURE STUDENTS ARE CAUTIONED TO ACQUAINT THEMSELVES WITH THE PROVISIONS OF THE LAWS OF THEIR RESPECTIVE STATES, GOVERNING PREPROFESSIONAL EDUCATIONAL REQUIREMENTS. THIS SHOULD BE DONE BEFORE ENTERING UPON THE PROFESSIONAL COURSE. IT IS TO BE EXPRESSLY UNDERSTOOD, HOWEVER, THAT ALL STUDENTS SEEKING ADMISSION, REGARDLESS OF THE VARIOUS STATE REQUIREMENTS, MUST SATISFY THE ENTRANCE REQUIREMENTS OF THE PHILADELPHIA COLLEGE OF OSTEOPATHY AS STATED ABOVE.

METHOD OF MAKING APPLICATION

Applications for a given Academic year will be accepted only until February 1st preceding the September of desired entrance. THIS IS THE DEADLINE—EARLY APPLICATION IS ENCOURAGED.

All inquiries regarding admissions should be addressed to the Registrar from whom application forms may be obtained.

The application form properly executed and accompanied by (a) the application fee of \$15.00, (b) a recent 2 x 3 photograph of the applicant, (c) a brief autobiographical sketch should be submitted to the Registrar. The fee is not refundable.

REQUIREMENTS FOR GRADUATION

Every candidate for the degree of Doctor of Osteopathy (D.O.) must be at least twenty-one years of age, and be of good moral character. He must have fulfilled all the requirements for admission to this College. He must have satisfactorily passed all prescribed examinations, and be free from indebtedness to the College and Hospital and must have completed the program of study required for the degree. The candidate must attend in person the annual commencement at which the degree is conferred.

REQUIREMENTS FOR PRACTICE

All students, upon graduating, are required to take State Board licensing examinations in order to practice in the respective States for which they wish to qualify. Such examinations are given by either State Boards of Osteopathic Examiners or composite Medical and Osteopathic Boards of Examiners, as regulated by the various State laws. The passing of the Board examinations and the subsequent license given to those who attain a satisfactory standing, give the privilege of registering for practice in certain other States without further examination. Students and graduates of the Philadelphia College of Osteopathy are admitted to the examinations of the National Board of Osteopathic Examiners.

TUITION AND FEES

The College has a single fee system, including tuition, laboratory fees, breakage fees, health service, etc. The basic fee does not include graduation fee nor certain items which are customarily the subject of student purchase, such as books and microscope, which remain the property of the student.

The present annual tuition is \$750, one half on the first of February in each academic year. The only exception to this schedule of payments is for the first year. Upon notification of acceptance by the Committee on Admissions, an advance payment of \$50.00 is required to retain the applicant's position in the class for which he is accepted. This advance payment will be deducted from the tuition payment due on Registration day, but is not refundable in case of withdrawal.

The fees to be paid by students are subject to change at any time in the discretion of the Board of Trustees.

Fees are neither returnable or transferable.

The student whose fees remain unpaid when due will be debarred from all classes until his obligations are adjusted. The student will be held accountable for all absences incurred through the operation of this rule. A fine of \$5 will be added to all fees not paid in full 10 days after the specified time for payment.

A fee of \$5 is charged for each examination given out of course.

Under no circumstances are any departures made from these announced regulations. Failure to meet these conditions will automatically debar the student from attendance to classes and other privileges of the College.

If a student withdraws from College on account of illness or other physical disability within two months from the opening date of any semester, a pro rata return of the tuition fee may be authorized, provided the student files with the Dean a written notification of his withdrawal together with a physician's certificate. In no case will fees be refunded for dishonorable dismissal or withdrawal on account of poor scholarship.

STUDENT COUNCIL FEES

The Student Council is authorized to assess the students from time to time on a per capita basis to finance its operation. These fees do not come within the scope of Veterans Administration Regulations. The fee has been set by Student Council at \$10. Each student upon registration must pay this fee to Student Council and separate checks must be drawn to the order of Student Council of Philadelphia College of Osteopathy and must not be drawn to the order of the College.

MICROSCOPES

All students entering the College are required to provide themselves with microscopes of standard type fitted with 10X oculars and 16 mm., 4 mm., and oil immersion objectives.

Students are required to provide themselves with instruments, laboratory materials, textbooks as recommended by the heads of the various departments and instruments needed for the various diagnostic examinations of patients. Each second-year student is required to equip himself with a hemocytometer.

SCHOLARSHIPS

The Auxiliary of the American Osteopathic Association awards five scholarships annually, each valued at \$800.00. An applicant for a scholarship must have received a tentative acceptance by an osteopathic college and must apply for the scholarship by June 1st of the year of matriculation.

Applications and inquiries for the scholarships should be addressed to the Director of the Office of Education of the American Osteopathic Association, 212 East Ohio Street, Chicago 11, Illinois.

STUDENT LOANS

The Student Loan Fund of the American Osteopathic Association has been set up to make possible certain financial assistance to deserving Junior and Senior students. Applications and other explanatory materials may be obtained in the Registrar's office.

STUDENT EMPLOYMENT

The program of professional study demands the full energy and time of the student. The demands are much more rigid than those of the average pre-professional curriculum.

For this reason, it is assumed that the student will not engage in any remunerative work while attending the College.

STUDENT HEALTH SERVICE

On March 31, 1951, the Board of Trustees voted the following health and accident insurance program which is provided without extra cost to undergraduate students of the College:

- 1. Pre-admission physical examination including roentgen ray study of the chest.
- 2. Annual physical examination while enrolled as a student, including roentgen ray study of the chest.
- 3. Three clinic or bedside appointments by a Staff Osteopathic Physician for any one disability while a student in the College.
- 4. Laboratory and special examinations when needed and approved by the Student Health Service.
- 5. A Blue Cross membership providing hospitalization benefits under the terms of the Semi-Private-Plan-Subscription Agreement while enrolled as a student in the College.

6. The privilege of subscribing for Blue Cross membership for dependents by paying the supplementary fee asked by the Blue Cross for such benefits. Payment to be made on a semi-annual basis.

STUDENT ACTIVITIES

Student Council

The welfare of the students in their relation to the College is in the hands of a Council consisting of representatives of the four classes in the College. The president of the organization is elected by the Student Council from the fourth-year class. Regular meetings are held throughout the year at which time appropriate topics are discussed. The Student Council expresses itself in matters affecting general student interests.

Neurone Society

The Neurone Society is a scientific and social organization of the student body of the College. It was organized February 24, 1902. The declared objectives of the Society are to encourage the development of osteopathic organization, to promote interest in scientific subjects, and to establish good fellowship among students. All students become members automatically at the time of registration.

Other Societies

There are organizations of students from the various states to which they plan to return for practice after graduation, constituting so-called "Junior societies." It is the aim of these societies to stimulate interest in the activities and problems of the respective State organizations and to encourage membership upon graduation. Other academic and social societies are the Neo-Honorary Society, the Newman Club, the Digon Society, the Obstetrical Society, the Neurological Society, the Bacteriological Society, the Urological Society, the Pediatrics Society. These organizations meet regularly to discuss diversified topics in their respective fields. A Junior Woman's Osteopathic Society has been formed. All women students are members of this Society. The wives of students have also been organized into a Student Wives' Association.

Fraternities

The following fraternities maintain chapters at the Philadelphia College of Osteopathy: Atlas, Iota Tau Sigma, Lambda Omicron Gamma, Phi Sigma Gamma.

An interfraternity council, consisting of representatives from each fraternity and the Dean, supervises and directs the affairs of common interest to these organizations. An agreement on matters of rushing and pledging has been operative for a number of years.

Publications

There are two publications of specific student interest on the campus. The Osteopathic Digest is a magazine published at intervals during the academic year for distribution among the students and Alumni. The Axone is the student newspaper which is sponsored by the Student Council and edited by members of the student body containing items of both campus and professional interest.

Glee Club

The College Glee Club is one of the most popular extra curriculum activities. This group is composed of both nurses and college students who under competent direction entertain at various College functions.

AFFILIATED EDUCATIONAL PROGRAMS

Students studying toward the degree of Doctor of Osteopathy benefit from attendance in an institution which sponsors a variety of related programs.

Graduate Division

The Graduate Division was established in 1933 to provide graduate instruction for osteopathic physicians who are engaged in service.

The primary purpose is to offer instruction on a short-term basis, or a part-time basis, to meet a variety of needs. Some graduate students are fulfilling requirements for certification in a specialty or for increased privileges of state license. Some are taking the courses as a review and to become familiar with recent advances in scientific knowledge and professional practice without further objective in mind.

Interne and Residency Training

Each year certain members of the graduating class are recommended for appointment as interns in the hospital. Selection is made on the basis of scholarship and the possession of those skills and personal qualities essential to high achievement in the profession.

A residency training program is also provided for graduate physicians who wish to prepare for specialty practice and who wish to qualify for State licenses and for certification by the American Osteopathic Association.

School of Nursing

Since 1915 a School of Nursing has been maintained with a highly selected student body drawn from a wide geographical area. The School is accredited by the Pennsylvania State Board of Examiners for the Registration of Nurses.

School of Nursing

MILDRED BRAINERD NEWTON, R.N. Director, School of Nursing and Nursing Service Hartford Hospital School of Nursing, Hartford, Conn. Diploma, University of Pennsylvania, B.S. in Ed., M.S. in Ed. IRMA JEANNETTE REESE, R.N. Assistant Director, School of Nursing and Nursing Service Osteopathic Hospital of Philadelphia School of Nursing Diploma, University of Pennsylvania, B.S. in Ed. MRS. BEATRICE KISTLER KISH, R.N. Science Instructor Petersburg Hospital School of Nursing Diploma, University of Pennsylvania, B.S. in Ed. MARTHA G. YOUNG, R.N. Nursing Arts Instructor Osteopathic Hospital School of Nursing Diploma, Elizabethtown College, B.S. EVELYN A. EBY, R.N. Clinical Instructor University of Pennsylvania Hospital School of Nursing Diploma, University of Pennsylvania, B.S.

The School of Nursing of the Osteopathic Hospital of Philadelphia has been accredited by the Pennsylvania State Board of Examiners for Registration of Nurses since April 1931.

The Director of Nursing Education and Service and her Staff are registered in the State of Pennsylvania. The student nurses throughout their course receive instruction from members of the Faculty of the Philadelphia College of Osteopathy who are also members of the Osteopathic Hospital Staff.

Facilities

In May, 1951, the Osteopathic Hospital bed capacity was more than doubled by the acquisition of the buildings and equipment of the long-established Women's Homeopathic Hospital in North Philadelphia. Situated across town from the parent hospital in West Philadelphia, the North Center operates in all its functions under the same general management. With a bed capacity of more than 400, the clinical teaching facilities available to the School of Nursing have thus been greatly expanded in the past few months.

In each hospital unit there are medical and surgical wards for both adults and children, with gynecological, obstetrical, urological, orthopedic, ophthalmologic, otolaryngologic, and other specific services, such as outpatient clinics, X-ray, and operating rooms.

In each of the two Hospital units there are private and semi-private accommodations for patients in addition to the wards.

At the North Center the facilities available for the instruction of the first year pre-clinical students include a modern well equipped Nursing Arts Laboratory, with adjoining dressing room, a nutrition laboratory, lecture room and library. Microbiology and chemistry are taught in the college laboratories. The Intermediate and Senior year programs are scheduled at the West Center, where the college classrooms, the library and Museum of Anatomy are used by the student nurses.

In addition to service in the Osteopathic Hospitals, the student nurse spends a period of six months in the Philadelphia General Hospital, where she receives the required instruction and experience in pediatrics and in psychiatric and neurological nursing.

Living Quarters

At the parent hospital in West Philadelphia, the Nurses' Home consists of three adjoining residential buildings, located about two blocks from the hospital. At the North Center, the Nurses' Home, one of the five buildings on the hospital grounds, is a three-story structure containing the educational unit as well as living quarters. A living room for the entertainment of friends is provided in each of the nurses' residence buildings, also kitchens and laundry. A house mother is in attendance at all times.

Admission

Students are admitted to classes in September of each year. Candidates must fill in application forms in their own handwriting and submit a transcript of their high school records.

A four-year academic high school course or its educational equivalent is essential. The applicant's credits must be evaluated as 16 units by the Pennsylvania Department of Public Instruction. Pre-entrance psychometric tests and a physical examination are required before the Director decides as to her acceptability.

Applicants must be at least 17 years old and not over 30. Since only citizens are eligible to take State Board examinations in Pennsylvania, U. S. citizenship is required.

Expenses

Student nurses receive board, room and laundry of uniforms. The approximate total expense for the three-year course, including tuition, books, uniforms, etc., is \$300.

Vacation and Absence

Four weeks' vacation is given each year. Leaves of absence for causes other than illness or convalescence are granted in urgent cases.

Health Program

The health program, supervised by members of the medical and nursing staffs, includes daily health clinics, annual physical examinations, semi-annual chest X-rays, and consultation with specialists as necessary. Hospitalization is provided for all ill students.

Time lost through illness is made up only when it exceeds 14 days.

Graduation

A course of three years' study and experience, including the pre-clinical period of six months and six months' affiliation with the Philadelphia General Hospital, is required for graduation. After graduation, nurses are eligible for State Board examinations; those who pass successfully become Registered Nurses (R.N.).

Graduates are eligible for reciprocity with other States and for membership in the Red Cross Nursing Service. Many of our nurses have been commissioned by the Army and Navy.

Well prepared nurses have unlimited opportunities in the various fields of nursing—private duty, institutional, public health, educational, governmental, etc.

The demand for Osteopathic nurses at present is far ahead of the supply and is increasing every year.
